## "QUALITY IS TRUE ECONOMY"

It is hardly necessary to mention the word **Quality** in connection with Coolidge stock, as our many good friends who place their orders with us year after year are our best testimony in this respect. You may therefore feel assured that any plants you purchase from us will be fully up to your expectations and entirely satisfactory to your customers.

We have now secured additional acreage for growing grounds in our immediate vicinity which will result in a substantial increase in our Wholesale Stock to serve your complete requirements.

Where prices are marked with an asterisk (\*) the plants will be ready for **Fall** delivery. The others are ready **now**.

TERMS:—60 days.                      2% for Cash on delivery.

Please fill in your requirements in the enclosed order form and return in the postage-free envelope.

If convenient, do not order less than 15 of any one variety in lining out sizes, not less than 10 in one gallon cans, and not less than 5 in five gallon cans. Also note that it is not profitable for us to ship by Freight or Express or Truck Delivery any orders totaling less than \$20.00.

This list cancels all previous issues. Prices subject to change without notice.

Please advise which method of shipping you prefer.

**Non-Warranty**—We give no warranty, expressed or implied, as to the productivity or variety of the plants we sell and we will not in any way be responsible for the crop, or for any delay or any failure in delivery through any and all causes beyond our control. Our liability in all instances is limited to the purchase price of the plants. Orders accepted only on these conditions.
